

ASHOK ANUPAM

AWS DEVOPS ENGINEER

A results-driven AWS DevOps Engineer with over 5 years of expertise in designing, automating, and optimizing cloud solutions to deliver scalable, secure, and high-performing infrastructures. Proficient in leveraging a comprehensive suite of AWS services, including **EC2, Lambda, S3, RDS, and EKS**, to meet diverse business needs. Skilled in **containerization and orchestration** with **Docker** and **Kubernetes**, and adept at **infrastructure as code (IaC)** using **Terraform** to streamline deployments.

Hands-on experience implementing **CI/CD pipelines** with tools like **GitHub Actions** and **Jenkins**, enabling seamless integration and delivery processes. Experienced in maintaining high-quality code and security compliance with **SonarQube** and managing artifacts efficiently using **Nexus Sonatype** Artifactory. Collaborative team player with a strong command of task tracking and documentation tools such as **Jira** and **Confluence**, ensuring streamlined workflows and effective communication.

SKILLS

AWS	Kubernetes	Terraform
Nexus Sonatype	Docker	CloudWatch
GitHub Actions	Jenkins	
GitHub	Bash Scripting	

EXPERIENCE

AWS-DevOps Engineer

Commonwealth Bank of Australia Apr 2022 – Present

- Led the migration of enterprise applications from on-premises infrastructure to AWS Public Cloud.
- Modernized legacy on-premises applications using AWS cloud-native services and DevOps practices.
- Executed a Re-Architecture (Re-Arch) migration strategy by transforming a monolithic legacy application into a microservices-based architecture and deploying it on Amazon EKS (Elastic Kubernetes Service) .
- Designed end-to-end cloud-native solutions aligned with modern architecture standards, focusing on scalability, reliability, and maintainability.
- Built and maintained CI/CD pipelines to automate application deployments to Kubernetes clusters.
- Developed and managed Kubernetes deployment manifests (Deployments, Services, ConfigMaps, Secrets, etc.) for containerized applications.
- Designed and operated enterprise AWS Landing Zones using AWS Organizations, governing 1,800+ AWS accounts with scalable multi-account architecture, OU design, and Service Control Policies (SCPs).
- Led platform-wide releases from the Organizations management account, orchestrating deployments across 1,800+ accounts using OU-based targeting, tag-driven CI/CD pipelines, CloudFormation, and AWS Lambda.
- Defined and enforced cross-account and cross-OU IAM architecture, including centralized identity, delegated administration, IAM roles, trust policies, and permission boundaries.
- Architected secure, standardized AWS networking across environments, including VPCs, subnets, routing, security groups, NACLs, AWS PrivateLink (Ingress/Egress), Route 53, and AWS Network Firewall.
- Built infrastructure automation platforms using Terraform and CloudFormation, delivering reusable modules for tier-based, self-service AWS resource provisioning.

Key Achievements

- Automated 85% of manual processes, resulting in a significant increase in operational efficiency and productivity.
- Improved system reliability, achieving 99.99% uptime through a resilient and well-monitored infrastructure.
- Reduced cloud infrastructure costs by 25% while maintaining optimal performance for high-demand computational workloads.
- Successfully implemented the solution without any downtime, ensuring seamless support for critical applications.

PROJECTS

Project Name	Organization	Duration
CCIB – Corporate Commercial Investment Banking - Lending provision	Commonwealth Bank – India	April 2022 to Till Date
FID IT IB PTG Transformation Initiative	TCS-Credit Suisse – India	Sep 2014 to Mar 2022
TATA SKY System Integration Project KENAN BILLING SYSTEM	Tata Consultancy Services	April 2012 to Jun 2014

EDUCATION

Bachelor Of Engineering

PES College of Engineering Sep 2007 - Jun 2011 First Class with Distinction

AISSCE

DAV Public School, Patna in 2006 with 74%

CERTIFICATION

- ITIL Certified Professional
- AWS Certified Solutions Architect
- OCI Generative AI Professional
- OCI Data Science Professional
- OCI AI Foundation Associate
- Oracle Cloud Infrastructure Associate

HOBBIES

Badminton, Photography
